

The City of Sparta is taking bids for a 30X60 pre-engineered metal building. The building will have an enclosed area of 30x45. The remaining 15 feet will be a covered roof with one side closed in. In the 30x45 area there will be two 10x10 garage doors (light grey) and a 3070 walk-door with latch guard included. The 30x45 area will be insulated. The roof will be high side 12'6" eave and a 10' feet low eave. The concrete will be engineered for the building (4inch slab and 4-inch gravel, all necessary piers and steel shown on the drawings), the building will be built to IBC2015 code. The exterior color will be light grey with black trim. Chat will be placed under the covered area and extend 20' to the front of the building and cover 20 feet the full length of the structure. All bids need to be submitted (sealed) to Sparta Police Department by Close of Business of 02/25/2021. Interested parties should contact Police chief Trampus Taylor at; policechief@spartamo.com.
